

## *Jesus, we trust in You!*

Regarding the Hurricane Helena destruction and flooding in North Carolina, I received the account below from a friend who received it from a friend who lives in North Carolina. This is a true testament to living in the Divine Will and praying the Hours of the Passion that Jesus gave to Luisa Piccarreta:

*From our sister in the Divine Will who is in western North Carolina: The devastation here is apocalyptic - of Biblical proportion! People are dying in mudslides. Bodies are floating down the rivers. Towns have been reduced to sticks and twisted metal. We ventured out yesterday and it was all so shocking! Hundreds of people unaccounted for. Winds hit 80 miles around us - almost every tree and power line down but our property just has a few tree branches - virtually untouched. What's miraculous is that we have electricity and none of our neighbors do! We are told in the Book of Heaven that the chastisement will pass over those who live in the Divine Will. Our Sovereign Queen has marked Her children who are not to be touched by the scourges. Of course, we are reaching out to neighbors - and family is coming here to shower and eat. One of my daughters and her family coming to stay for a while - they don't expect to have electricity for 6 months or more - the bridges are all washed out by their home - one family of five near them died in a mudslide. Thank you again for your prayers in the Will, they are radiating God's brilliant Light out to us☀☀☀☀☀ - converting hearts! (As we know God is touching the people's flesh to remind them they have a soul.)*
